

MONDAY, OCTOBER 26, 1835.

NOTICE.—The Democratic Voters of the City of Boston, in favor of regular nominations, are requested to meet in the old Common Council Room, (Court Square) on TUESDAY EVENING, 27th inst., at 7 o'clock, to agree upon the mode of Nominating Candidates for Senators for the County of Suffolk, and Representatives for the City of Boston. By order of the County Committee.

PETER DUNBAR, Chairman.
SETH J. THOMAS, Secretary. Oct. 3

The New York State Abolition Convention.—The N. Y. Journal of Commerce contains a letter from Utica, dated on Thursday morning, which gives the particulars of the proceedings in relation to the Abolition Convention on the preceding day. On the morning of the 21st, a meeting of the citizens was held, and a committee of 25 persons appointed to wait upon the members of the Convention, and represent to them the opinions entertained in relation to the object for which they had assembled—the civil consequences which would be likely to ensue if they persisted in their attempt—the excited state of the public feeling—the character of the meeting, &c. &c., and to urge, upon them the necessity of giving up the purpose for which they had convened, before tumult and violence should become the order of the day. This committee accordingly waited upon the Convention, and read to them the proceedings of the meeting of citizens, and called upon them for the reply which they should bear to the people. Some of the Abolitionists asked for a conference, but this was refused, as the citizens would in no case consent to the holding of the Convention, but expected an explicit answer without delay. The expression of opinion by the Committee, backed by the same expression in the countenances of the assembled citizens, alarmed the Abolitionists. The President adjourned the Convention without day—and the members made good their retreat, a considerable portion of them wending their way to Peterboro', about 30 miles from Utica, to put themselves under the protection of Gerrit Smith Esq. During the night, the influential anti-abolition citizens guarded the houses of Alvan Stewart and Spencer Kellogg, to make sure against all harm; but no violence was attempted. During the evening the types in the office of the Standard and Democrat were thrown out of the window. Effigies of several Abolitionists were prepared to be burnt during the evening, and might have been the commencement of disorder; but the great efforts of the more judicious citizens, who set their faces against all such movements, prevented their being brought out.

These facts may be depended upon as correct in all their features, as they were communicated to the Journal of Commerce by one of its editors, who went to Utica for the purpose. We notice in some of the papers, a statement to the effect that the mob commenced tearing down the church, &c., all of which is entirely unfounded. As to the mob, says the Journal of Commerce, "there was none, unless the assembled citizens of Utica in regularly organized meeting, with their Chairman and a Committee of twenty-five most respectable citizens, is to be inappreciated a mob."

Capt. Ira Bursley, master of one of the New York and Liverpool packets, was brought before the Superior Court, on Wednesday, on a charge of abusing a young girl named Alice Woodley, who was a passenger in his ship, in the capacity of servant to Mr and Mrs Calhoun, of Philadelphia, in August, 1834. It seems the defendant had ordered a parrot belonging to the plaintiff to be killed, in consequence of its being noisy and offensive to the passengers; that the act so much enraged the plaintiff that she threatened to stab the person who committed it, and refused in a very boisterous manner to obey the captain's commands, and go into the ladies' cabin; that officer, it seems, forced her into the cabin, and it was charged—but not proved to the satisfaction of the jury—that in so doing, he knocked her down and kicked her. The jury returned a verdict of six cents for the plaintiff.

"Boston House."—A project is on foot for building a splendid new hotel, in every respect equal to the Tremont House, on the land belonging to the estates of Dr Ware, the Swedenborgian Church, and nine adjacent lots on the Phillips property, including about 30,000 feet. The want of such an establishment is seriously felt by travellers, notwithstanding the number of good public houses of which the city can boast—and we have no doubt money thus expended would be a profitable investment.

Stephen Russell, now in jail for setting fire to the dwelling house in South Street Place, has confessed that he, in company with a man by the name of Thomas Tisdale, broke open Mr Hutchinson's store in Purchase street, on the 13th of August last, and that Tisdale then set it on fire. Tisdale has been arrested and some of Mr Hutchinson's goods found in his possession. He graduated from the Charlestown State Prison about two years since.

Progress of matrimonial felicity.—The N. York Transcript gives the following account of the treatment of a negro in that city towards his better half—"About six months after marriage, he began to find fault with her—in nine months, he quarrelled with her—in ten months, he abused her and called her names—in eleven months, he beat her—and before a twelvemonth had expired, he cleared her out, "bag and baggage," from partaking of his bed and board"—and soon after married again.

A brotherly act, which should not be forgotten.—The Atlas states that the Firemen of Salem, with a spirit which does them great credit, "have fitted up one of their most powerful engines, with a pole and other necessary appendages, to enable them to harness four horses at a moment's notice; and they promise themselves to be in Boston in one hour from the time they may learn that their presence can be useful."

Great Speed.—The Steam Boat Champlain has made a trip from New York to Albany in nine hours and fourteen minutes, including 57 minutes lost at the several landings, of which she made 14—making the actual time of running 8 hours and 17 minutes. This is the shortest passage ever made, and shorter by 46 minutes than that made recently by the Bunker Hill.

The city of Troy contains a population of 16,971. Increase since 1820, 5,415.

LATER FROM EUROPE.

By the packet-ship Francis Dupau, at New York, from Havre, Paris papers to the evening of the 19th ult. have been received, containing London dates to the evening of the 17th. The dates are six days and a half days later from Paris, and two and a half later from London, than before received.

They bring intelligence of a severe engagement near Bilbao on the 11th, in which the Queen's troops, with their English auxiliaries, were defeated with great loss, which is variously stated at from 1000 to 1800 and 2000 men, in killed and wounded. This being the first engagement of any importance in which the British troops have been engaged, and will have a tendency greatly to encourage the Carlists, and at the same time to dishearten the troops of the Queen. It appears by a letter from Santander of Sept. 8th, (three days before the battle,) that the whole English force was then concentrated about Bilbao, and amounted to about 6000 men. The writer adds, "Don Carlos still adheres to his determination of putting to death all foreigners who fall into his hands."

Don Carlos has appointed the most holy Virgin de los Dolores, Generalissima of his troops, and has ordered that the royal standard bearing her image shall receive the same honors and salutes as are rendered to the holy sacrament.

Fieschi, who has become quite convalescent, walks every day in the Court of the Conciergerie called the Cour des Femmes. His head is bound round with a black silk handkerchief, and he wears his wounded hand in a sling. Cows, or blinds have been placed before the windows of the gallery of the Palais de Justice, which look into this court, and sentinels are posted at the windows of the Registry Office of the Cour Royale from seven in the morning till four in the afternoon, in order to prevent the public from approaching that part of the prison which is reserved for Fieschi. The *Moniteur du Commerce* informs that it was positively M. Pepin that supplied money to Fieschi to pay for the gun-barrels, that Fieschi lodged at his house till the moment when he went to the Boulevard du Temple; and adds, that M. Pepin quitted his own house on July 26.

The *Scorpion* brig of war has arrived at Falmouth, with the Lisbon mail. She sailed on the 6th inst. Every thing was going on well there.

From an official bulletin it appears that the number of victims of the cholera at Algiers, from its first breaking out to September 24, was 1,400. Private letters state them at 1,800.

Turkey—Constantinople, Aug. 26.—Great preparations are making against the insurgents in Albania. "The accounts from that country are by no means tranquillizing, and reinforcements are being sent there daily, both by sea and land. The news from Persia is still deplorable. Civil war continues to rage there."

The engagement at Bilbao on the 11th was much less disastrous to the Queen's troops than at first reported.

A new ministry has been formed in Spain, with M. Mendizabal at its head, which promises to secure the approbation of many of the Liberals.

The Cholera in Italy appears to be subsiding. The aggregate number of deaths at Genoa is stated at between 3 and 4000, of which 1000 occurred in a single week.

The London papers of the 25th contain an official announcement that American vessels have a right to trade directly with Singapore.

MARKETS.
Liverpool, Sept. 25.—Cotton.—Our Cotton market does not yet improve. We have had rather more business done, and in the early part of the week prices were firmer, but we cannot now confirm this favorable symptom. The import is 17,925 bales, and the sales are 19,430 bales. The market is at 25 1/2 to 26 1/2—10 bales to 14 1/2 to 15 1/2—350 bales to 24 1/2 to 25 1/2—New Orleans 7 1/2 to 13 1/2—3380 Alabama, &c. 7 1/2 to 11 1/2—760 Pernambuco 12 1/2 to 13 1/2—330 Bishia 12 to 13 1/2—710 Marham 11 1/2 to 14 1/2—80 Bemerina 12 1/2 to 14 1/2—114 1/2 to 13 1/2—100 Bishia to 10 1/2 to 12 1/2—270 Bishia 15 to 17 1/2—730 Sugar 6 1/2 to 7 1/2—60 Bishia 7 1/2 to 8 1/2.

Sept. 26.—The Cotton market has been very dull to-day, the des only amounting to 1200 bales, chiefly American, of which about 200 have been taken for export, and the market again closed heavily without any decided change in prices.
24th.—Tapioca.—No sales made last week. This week 900 bales have been sold at 155 1/2 to 158 1/2 and 100 at 154 1/2 to 157 1/2. Tar.—500 barrels were sold at 138 per 50 lb. Ashes.—The sales amounted to 300 to 400 bales Montreal Pot at 30s a bag, 60 we quote the Pen. Ashes at 37s a bag, and the Corn is underdone no change of any moment. We quote the Price Flour in bond at 19s to 20s, and sweet at 25s to 26s per cwt of 196 lbs.

The Siamese Twins outdone.—There are now on exhibition in New York, a couple of Virginia born twin mulatto children, perfectly formed and united together in the upper part of their bodies, and in their necks and faces as if in close embrace, forming, by a continuity of surface and flesh, one individual. They were a premature birth, but lived several hours after they were born. Their limbs, backs, heads, eyes and features of each are perfect, and even beautiful.

Close Reasoning.—A man brought before the New York Police Court, for beating his wife, explained the matter thus:—

"Sure and didn't I catch her fast asleep in the middle of me own bed, betwixt two dirty devil's chickens that she had brought home to bate me; and wouldn't yer honor have bate yer own wife, if ye had the misfortune to be married, if she'd have served ye as I've been treated?"

Legal Decision.—A man was objected to as a witness in the Superior Court, New York, on Tuesday, on the ground that he was a convicted felon, when it was proved that after the full execution of his sentence, he had been pardoned by the Governor, for the purpose of qualifying him as a witness—and he was, on this ground, admitted to testify.

Pennsylvania.—Returns from all the counties give Ritner 91,861—Wolf 61,856—Mullenburg 54,055.—Ritner's majority over Wolf, 30,025; do. do. over Mullenburg, 54,055. Sum of the votes for both Wolf and Mullenburg, 99,682: being 7,821 more than the votes for Ritner.

The citizens of Tuscaloosa have driven the gamblers from that city, "bell, book and candlestick."

U.S. CIRCUIT COURT.

Transportation of Slaves from one foreign port to another.—The Circuit Court were occupied on Friday and Saturday last, in the trial of John Battiste, of New Bedford, indicted for an alleged act of piracy, by being engaged in the Slave-trade. The trial was had before Judges Story and Davis, and the prosecution conducted by Mr District Attorney Mills, and the defence by Messrs Webster and Charles P. Curtis. The circumstances upon which the indictment against Battiste was founded, were as follows:—

Battiste was mate of the brig America, owned in New Bedford, and commanded by Capt Miller (also indicted) which was engaged in trade on the Coast of Africa, in 1834. In the course of the traffic with the Portuguese settlements, the America at sundry times conveyed slaves as passengers from the port of Old Benguela to port Londo, both ports being regularly under Portuguese jurisdiction. There was no evidence or pretence that Battiste had any property interest in the slaves thus transported, from port to port, but that he only performed such duties in relation to their embarkation and disembarkation, as devolved upon him, as Chief Officer of the brig. Nor was there any evidence to show what became of these negroes. Upon these facts the Grand Jury found an indictment as constituting an offence against the Act of Congress, 1820, chap. 113. Section 4 of this statute provides:—

"That if any citizen, &c. shall land from such (American) ship, or vessel, and on any foreign shore, seize any negro or mulatto, not held to service or labor by the laws of the United States, or territories of the United States, with intent to make such negro or mulatto a slave; or decoy, or forcibly bring or carry, or shall receive, such negro on board, &c. with intent as aforesaid, such citizen, or person shall be adjudged a pirate, &c. and suffer death."

The defence mainly set up was, that as the negroes, when taken on board of the brig, were then actually slaves, they could not be made slaves; that the intention was clearly nothing more than to take them as passengers, and entirely different from seizing or receiving free negroes, and reducing them to slavery subsequently. It was admitted that the acts proved might amount to a violation of the act of 1800, chap. 51, which renders such a transportation of slaves a penal offence, but not capital.

Judge STORY, in charging the jury, said he could not believe that Congress, in the statute of 1820, contemplated the act of conveying slaves from one foreign port to another, as passengers, particularly as the law of 1800, which was not repealed, provided against that offence, and he was clearly of opinion, that Battiste was guilty of breaking that law. He did not see, therefore, how the prisoner could be convicted on the capital indictment. Thus instructed on the law, the jury returned a verdict of Not Guilty, in a few minutes after the case was committed to them.

Both Captain Miller and Battiste are now to be tried for the misdemeanor of transporting slaves from one foreign port to another, contrary to the provisions of the act of 1800, chap. 51, sect. 2:—

"That it shall be unlawful for any citizen of the United States, or other person, to serve on board any vessel of the United States, employed, or made use of, in the transportation, or conveying of slaves from one foreign country or place to another, &c. under penalty of a fine not exceeding \$2000, and imprisonment not exceeding two years."

Fire.—The Jail in the town of Hillsborough (N. C.) was destroyed by fire on the 6th inst. It is supposed to have been set on fire by a black fellow named Henry Harris, committed as a runaway. There were 13 prisoners in the jail, two of whom escaped, viz. James Adcock, committed for burglary, and Washington Revels, for assault and house-breaking. A mail robber who had been pardoned was set at liberty the day previous.

The bodies of three negroes, packed in tierces, were forwarded from Baltimore for Philadelphia, by the Union Line, and put on shore at Newcastle, Del., on account of their disagreeable odour. They were probably subjects for dissection, forwarded for some medical institution at the north.

The last turn out.—Sixteen grown men, employed by the Mill Dam Corporation, near Bangor, turned out the other day because tea and coffee were not furnished them for dinner. The employer was inexorable, the sixteen unyielding, and so the matter rested at the last dates.

Democratic candidates for the State Senate.—Hamden County, Harvey Chapin and Oren Sage; Berkshire, Russell Brown, of Cheshire, and Joseph Field, of New Marlborough.

ELECTION RETURNS.—GLORIOUS NEWS!

Ohio.—The returns from Ohio are of the most cheering character, and give evidence of the onward march of democratic principles. The following returns are condensed from the Journal of Commerce, and are all that have as yet come to hand:—

The returns from the Western Reserve show a large Jackson gain. John W. Allen, the Whig candidate for the Senate, from Cuyahoga and Medina counties, is elected over Stephen V. Sargent, by a majority of about 171. In the former County his majority was about 325; in the latter, Sargent's majority was 154. Last year Cuyahoga gave a Whig majority for Governor of 540, and Medina 164.

In Lorain County, 16 towns, Hubbard, the Jackson candidate for the legislature was ahead 175 votes. Last year the Whig majority for Governor in this county was 16.

The town of Ravenna, in Portage county, gives a Jackson majority for Senator. Whole number of votes 225.

Franklin and Pickaway counties have elected a Whig Senator. In Franklin county, the Van Buren Representatives (last year Whig) is elected by a majority of 299.

In Fairfield county one Whig and one Van Buren man are elected to the Assembly—same as last year.

Ross county has elected a Van Buren Senator and two Van Buren Representatives. Last year all Whigs.

Delaware county has elected a Whig Representative—same last year.

Belmont county, according to the Ohio State Journal, has elected Benjamin Ruggles (W.) to the Senate.

In Cincinnati the number of votes polled to 4 o'clock on the day of election, was 2775. Particulars not ascertained.

A letter to the N. Y. Evening Post, dated Cincinnati, 16th inst., says:—
"We have returns from counties sending 35 members to the House. They stand 25 Democrats and 10 Whigs. The same counties sent last year 16 Democrats and 19 Whigs. Seven Senatorial Districts are received. They stand 4 Democrats and 3 Whigs. They stood in the last Senate 5 Whigs and 2 Democrats."

Still Later.—Since the above was in type, we have received a slip from the Columbus Hemisphere, dated 17th inst., which states:—

"That the Democrats have 7 Senators—the Whigs 3. In the last Senate the same Districts stood 6 Whigs, 4 Democrats. Eight more Districts to hear from. In the House, the returns, thus far, give 31 Democrats and 12 Whigs. The same counties stood, last year, 22 Whigs and 21 Democrats."

"We the People," published in Bridgewater, gives the details of a suicide committed in that town on the 17th inst. Mr Walter Hayward, Jr., aged 24 years, was found suspended from an oak tree in the vicinity of his residence. He was married to a beautiful young lady on the 12th instant. Mr H. was in good circumstances and bore an excellent character, but had recently received some injury on the head while engaged in moving a building, which is given as the cause of committing the act which ended his life.

New Island.—The ship Gen Jackson, Capt. Smith, which arrived at Bristol on Monday from a whaling voyage, discovered on the 14th of February last, an Island lying in lon 171 07 W lat 09 23 S by Chronometer, not laid down on any Chart, to which Capt Smith gave the name of D'Wolf's Island. It appeared to be well wooded. When about five miles distant, was chased by about thirty canoes.—*Jour. Com.*
